Build your business with stability, quality, reliability and versatile printing

What does it take to expand your in-house print production? How can you get the stable performance you need?

The new Ricoh Pro 8320/8310 delivers exactly what your competitive environment demands. And more besides. Our printers offer impressive black and white speeds for high document volume at up to 136ppm. Robust design that stands the test of time with auto recovery to minimise downtime and maximise your turnaround time and large operation panel for simple usability.

The brand new range of automated high-end finishing options gives you even greater versatility to capture more business from speciality books to professional bids and manuals.

The new Ricoh Pro 8320/8310 offers the new options you need to grow and enhance your business.

- New higher finishing capability
- Enhanced productivity
- Better reliability
- Simpler to use

Designed to be productive and reliable

The Ricoh Pro 8320/8310 deliver outstanding high volume, black and white output at speeds up to 136ppm providing the quality and reliability you need.

Higher finishing capability

From text books, corporate manuals and general booklets to speciality cookbooks and educational books, the Ricoh Pro 8320/8310 range of new high-end finishing options offers more opportunities to increase productivity and media capability.

Easier for everyone to use

New large operation panel. Features such as an improved user interface design on the 17 inch smart touch screen panel allows easy operation. Jam removal process is more intuitive with LED guidance.

High image quality

Both models use innovative VSCEL* technology to provide clean, smooth high-definition image quality, with 2400 x 4800dpi resolution and higher consistent image quality over long runs.

*Vertical Cavity Surface Emitting Laser

Better technology and value

The latest laser technology

Our innovative VCSEL* technology gives best in class resolution of 2400 x 4800dpi creating outstanding image quality. VCSEL has as many as 40 laser beams emitting simultaneously to give exceptionally accurate and smooth, professional quality. Indirect transfer belt technology also contributes to higher image quality, plus new process control maintains higher image consistency over long runs.

*Vertical Cavity Surface Emitting Laser

Uptime maximised

- Operators can replace Operator Replaceable Units (ORU) to maximise uptime
- Remote assist by Ricoh operator minimises downtime
- Simplified fuser section for faster and easier maintenance
- Faster warm up times and recovery from energy saver mode helps improve output and increase efficiency

Increased reliability

- Fewer paper jams to improve productivity
- Higher duty cycle
- Enhanced purge function for auto recovery

Brand new options and opportunities

New High-end Finisher

- More robust finisher with non-stop delivery
- Increased stack capacity with dual shift trays (1000 sheets, 3500 sheets)
- Enhanced saddle-stitching capabilities with max 30 sheets (80gsm)
- Better folding for thinner booklets to enhance production
- Support up to 350gsm
- Higher productivity

New Interposer

- Coated paper can be fed continuously by air-assisted feeding from the leading edge
- Support up to 350gsm
- 2-tray per >200 sheets
- Stands on its own for stability

New Trimmer

- Trims 30-sheet booklets to enhance productivity
- Fore edge trimmer

New Bridge Unit

- Connect Plockmatic Booklet Maker to the mainframe without a finisher

High-end advantages to keep you ahead

New Ring binder

- Fully automates binding workflow, saving time and labour costs
- Ease of operation as the system process from printing to closing rings without manual intervention
- Two sizes of consumable rings are available for 50 or 100 A4 sheets
- Black/white coloured rings available
- Smaller footprint saves installation space

GBC eWire Binder

- New fully automated inline binding system using traditional twin-loop wire binding eliminates manual processes for increased productivity
- Binds plain, coated and tabbed stock and paper weights from 63gsm up to 350gsm (16lb bond – 130lb cover)
- Produces high-end proposals, booklets, reports, directories, calendars, educational books and manuals and speciality books to expand your client base

More benefits for higher volumes

High Capacity Stacker

- Stacks up to 5000 sheets (SRA3, A4, LT size) on shift tray and 250 sheets on one proof tray
- Air-assist function for enhanced stack performance

Vacuum Feed LCIT

- Improved pick-up/feeding increases productivity and reduces downtime
- Two trays can be connected

Higher-output Capacity Finisher

New Finisher is capable to output 3500 sheets in shift tray and 1000 sheets to proof tray. It allows continuous printing in long runs.

High-value opportunities

Transactional printing

Ricoh's genuine IPDS print option opens the way for you to take advantage of high value transactional documents.

- Barcodes can be printed onto address labels, direct mail pieces and envelopes
- To maintain productivity, invoices and statements can be scheduled to print overnight
- Also supports Magnetic Ink Character Recognition (MICR) printing of cheques

Accurate, full speed production

- Print streams are managed at page level for error-free production at full speed

Ricoh workflow solution

TotalFlow Production Manager offers a single solution to manage jobs across multiple output devices whilst enabling automated workflow functionality including integrated imposition* and pre-flight** to streamline production and reduce errors associated with problem files.

Both solutions offer open connectivity with Ricoh, EFI Fiery™ and third party *** Digital Front End.

(Powered by * Ultimate and **Enfocus)

*** Professional Services may be required.

Versatile media support

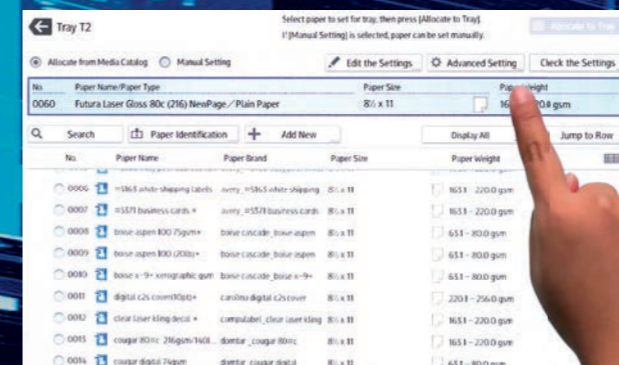

Expand in-house production

- Superb printing performance on everything from carbonless paper, textured and coated media to envelopes and pre-printed forms
- Supports paper weights from 40gsm to 350gsm, option dependent
- Also supports larger sheet size up to 700mm

More options to succeed

- Lets you offer clients everything from text books and luxury books to office documents, manuals and poster printing
- Enables the same media to be used for offset and digital production
- Optional decurl unit eliminates paper curl which can be a problem with the use of long grain and lightweight media

Extensive media library

- Ricoh's extensive onboard media library provides automated settings for a variety of branded media and media types
- Simplifies set up and ensures reliable performance

The power for performance

Enhanced processing performance

Benefit from a high performance 1.91GHz Atom Processor, 2GB memory and 320GB x 2 SATA. It delivers faster processing of complex print jobs and supports finishing options to suit your needs and broaden your client offering.

Robust functionality for maximum productivity

The new EFI controller EB-35 helps simplify file management and job workflow for greater efficiency.

- Export current view – allows users to export the information from their current Job centre view
- Link to EFI Smart Support - in-software link from Apps and Resources to EFI Smart Support, gives direct access to the EFI online knowledge base
- Fiery JobMaster update – file size is reduced for duplicate jobs
- JobFlow™ 2.5 ready

All the options you need to succeed

- 1 Pro™ 8320/8310s Series
- 2 New large 17 inch Operation Panel
- 3 4,400 sheet vacuum feed large Capacity Tray
- 4 Standard Paper Trays
- 5 New Cover Interposer
- 6 5,000 sheet High Capacity Stacker
- 7 New Booklet Finisher
- 8 Optional Bypass
